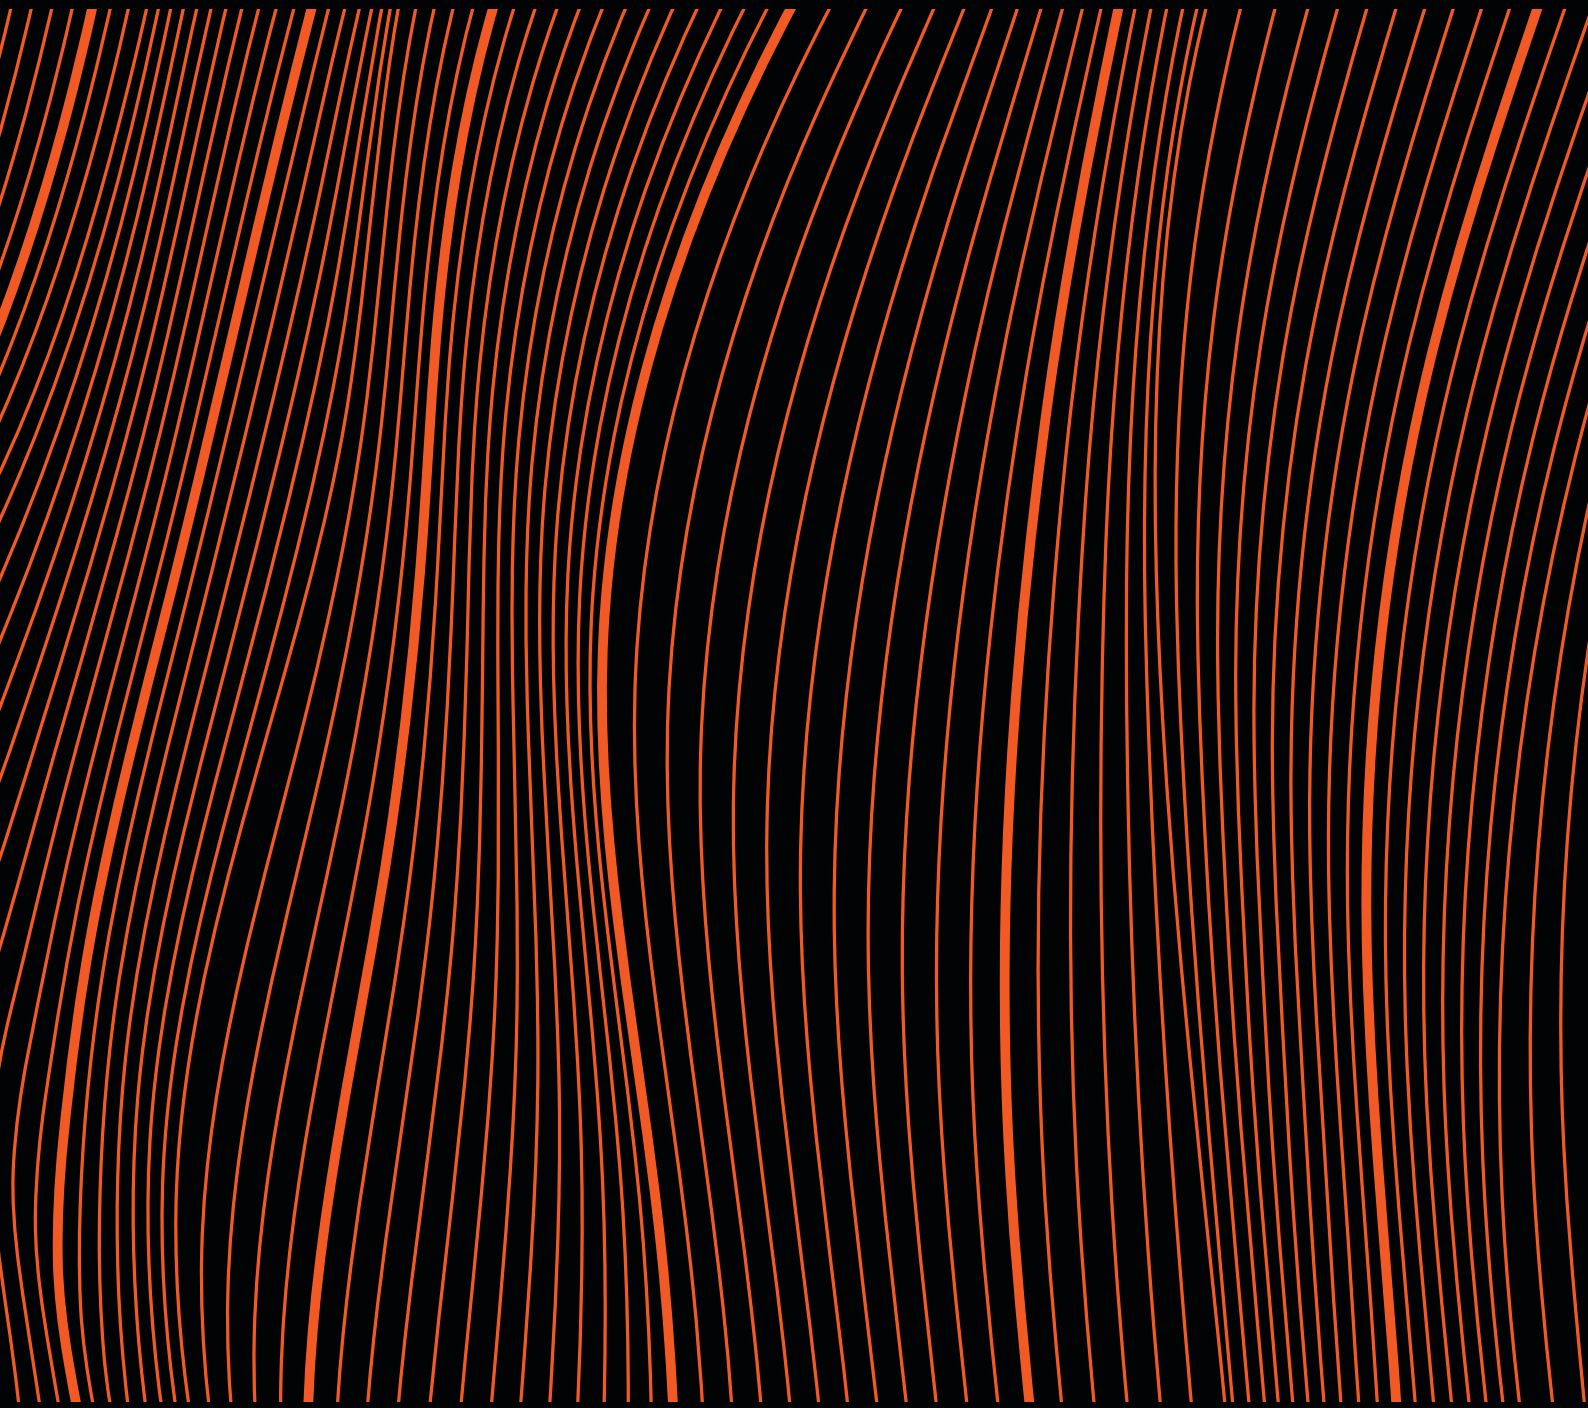
FURNLINK®

Assisted Living Furniture Range



FURNLINK

Furnlink is an Australian-owned wholesale furniture supplier specialising in commercial and hospitality sectors.

The brand emphasises quality, durability, and customisation, offering a wide range of products suitable for various settings, including aged care, hospitals, medical centres, hotels, resorts, restaurants, and cafes.

Emphasises partners with leading European brands to provide innovative and sustainable furniture solutions.

Values we bring

Transparency

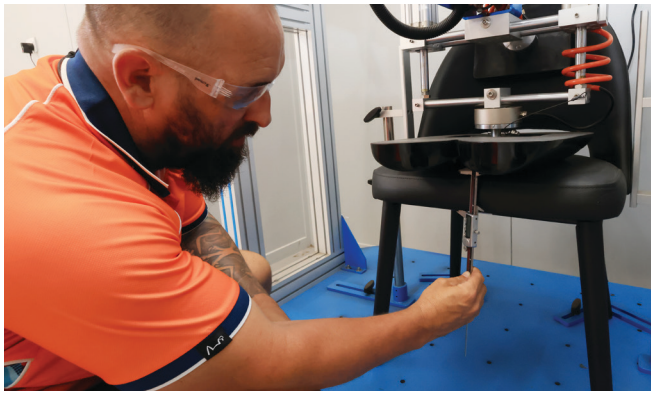
Everything the customer needs is easily accessible online, from reps or head office. There are no hidden surprises.

Human expertise & ownership

Strong sales relationships (trusted advisors) + head office support that pre-empts and fixes problems.

Digital & systems integration

API + portal + easy ordering + marketing assets



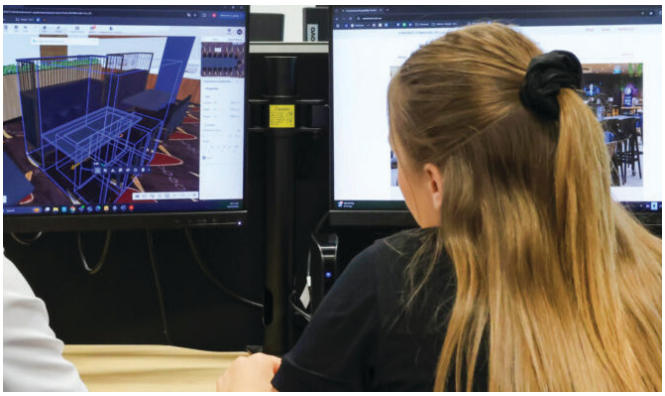
Reliability & breadth of supply

Large supplier network + wide product range + exclusives + customisable options + Australia wide distribution. Stock, speed, and dependable fulfillment.

Our Capabilities

Project Management

End-to-End Project Oversight
We manage hospitality projects end-to-end — from removal to installation — ensuring control and accountability throughout.

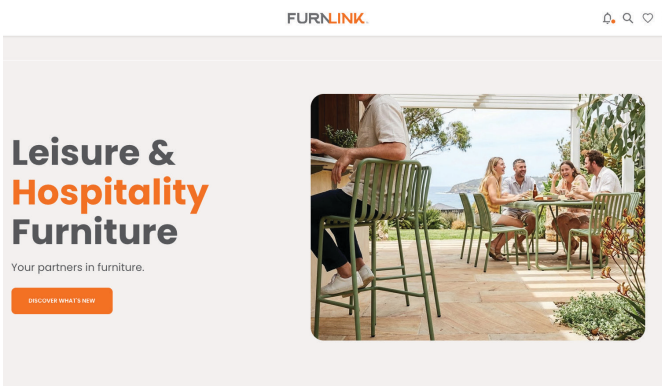


Design

Our in-house designers work with you to develop commercially aligned colour palettes, materials and layouts.

Sourcing, Custom & Manufacturing

Our procurement team manages complex sourcing requirements across multiple vendors and international manufacturing partners. Where projects require unique outcomes, we coordinate the manufacture of tailored products that cannot be sourced off the shelf.



Easy online ordering & tracking

Once you partner with Furnlink, you'll be set up with your personal online portal. Simply log into your account to place and track your orders online. Done and dusted!

Simple and efficient to navigate, you'll also have instant access to up-to-date pricing information, stock levels, freight rates, delivery timings, comprehensive marketing resources, and more - all at the click of a button.

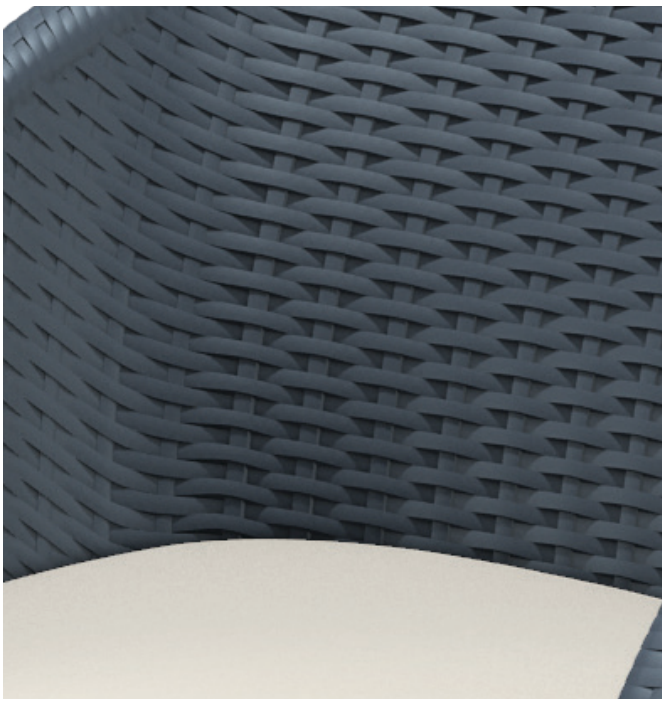
Our aged care collection seamlessly blends physical support and comfort with the rigorous durability required for high-care environments.

Core Range

Eliminate warehousing overhead. We maintain a fully stocked core range of purpose-built aged care furniture, ready for immediate deployment. Manage your supply chain seamlessly through your personalized Furnlink portal, and leverage our warehouse infrastructure to deliver uninterrupted, high-speed service to your clients.

Custom Products

Seeking a more tailored solution? Whether you require a specific textile for easier care or a custom table size for a unique floor plan, we are here to help. Our in-house design team sources an extensive range of premium materials to ensure every piece of furniture aligns perfectly with your facility's vibe and your residents' physical needs. From custom dimensions to curated color palettes, we provide the flexibility required to create a world-class aged care environment.



Polypropylene Furniture

Polypropylene furniture is highly suited to the demands of aged care living because it is durable, easy to clean, strong but lightweight. Furnlink's high quality polypropylene is sourced from Europe, and is strengthened with glass fibre to make it extremely strong. It's made to the highest quality standards to outlast cheaper copies, both indoors and outdoors in the harsh Australian climate.

> Polypropylene is extremely easy to clean: Simply spray and wipe for an hygenic, simple clean

> Polypropylene is non-porous, meaning it doesn't absorb moisture making it resistant to mould and mildew

> Scratch, stain and dent resistant to retain its look for years

> UV and weather resistant - our polypropylene is treated to retain its colour and last for years even in the harsh Australian sunlight

> Super lightweight and easy to move and stack, making it easier for your staff to lift and clean the furniture

> Although it's lightweight polypropylene is extremely strong to provide aged care residents with comfort and support as they use the furniture

> Available in a huge range of colours and styles so you can choose furniture for any area of an aged care centre

Wood-Look Metal Furniture

Create a warm homely atmosphere in your aged care residence with our wood look furniture, but without the care and maintence wooden furniture needs.

Our wood-look furniture is made of metal powder coated with a wood grain, giving you an easy-clean, strong but lightweight chair that won't scratch, warp or break.

> Because our chairs are fully metal welded, there are no joints to warp, break or snap

> Less expensive - get the look you want for less!

> Lightweight - A metal chair is 50% more lightweight than its wooden counterpart, meaning it's easier to move and clean by your staff

> Easy to clean - simply spray and wipe the metal frame for a hygenic clean

> Stackable - Can stack metal chairs higher than wooden chairs, wasting storage space

> Scratch, dent and stain resistant - metal chairs are far more rigorous and durable than a wooden chair, you won't have to buff or sand these chairs back to acheive their original look!

> Strong - the strength of metal is perfect in providing support to aged care residents as they support themselves on the chairs

Indoor Chairs

Provide a seamless aesthetic across the entire facility: Our range includes durable, supportive seating for reception, dining, lounges, and private bedrooms.

> Built to be comfortable but supportive for aged care clients

> Sturdy and strong, made from the highest quality materials
